Rich In Fiber

OAT

Oat Choco is made from whole grains and enriched with fiber. It is a complete source of nutrients and a natural regulator of blood cholesterol. Also, due to having inulin, which is a type of probiotic fiber, it is an excellent and energy-rich snack for growing children and teenagers, and of course adults. It is perfect for people who want a healthy and nutritious snack. It dissolves easily in milk, so children can replace it with breakfast cereals and eat it with milk.
